We are VAJRA — One of the leading construction companies in Bhutan.

## About Us

Established in 2005, we have carried out some of the biggest construction projects in Bhutan including construction of a 7-star Six Senses Resort in Thimphu and JSW Law School in Paro. Lately, we have ventured into construction of hydropower projects in the country. Over the years, we have invested heavily in the implementation of occupational health and safety in construction. In 2019, we became the first private construction company in Bhutan to get certified by the erstwhile Ministry of Labour and Human Resources for successful implementation of occupational health and safety at workplace. In April 2023, we got certified for ISO 9001: 2015 (Quality Management System), ISO 14001: 2015 (Environmental Management System), and ISO 45001: 2018 (Occupational Health and Safety Management System) becoming the first construction company in Bhutan to have found to comply with the requirement of ISO Standards.

Design that meets your need

Elegance that meets function
